Commissioner for Patents

Applicant's amendment and response of 5/3/06 is acknowledged. Thereafter, on 07/27/06, a Final Rejection was sent. Applicant's amendment and arguments filed 05/03/2006 are acknowledged. As indicated at the outset of the Final Rejection, "Applicant's only substantive amendment is to claim 1 to now recite "andwhen R is a hydrogen atom, m is not 1", in order to overcome the recited prior art of record. This amendment has NOT been entered. Namely, the amendment is drawn to a new limitation which was not originally presented or searched [e.g. m is not 1 was never an option]. Therefore, a new search, beyond that originally conducted over the originally filed claims would be necessary in order to search the prior art for these new limitations."

It is suggested that Applicant amend the claims to be within the scope of the originally filed claims. Alternatively, Applicant may consider filing a continuation application to pursue other and/or broader subject matter of this application, if desired.

Since the above-mentioned reply appears to be bona fide, applicant is given ONE (1) MONTH or THIRTY (30) DAYS from the mailing date of this notice, whichever is longer, within which to supply the omission or correction in order to avoid abandonment. EXTENSIONS OF THIS TIME PERIOD MAY BE GRANTED UNDER 37 CFR 1.136(a).

Appropriate correction is required.
